

Seneca Business Mapping to the Sustainable Development Goals (SDGs)

Published 3/22/2022 by [Anonymous](#)

As a signatory of PRME, we are undertaking a significant commitment to embed the principles of sustainability, ethics and responsibility in our course offerings, research, and partnerships models. Partaking and signing up for PRME confirms Seneca Business' strong commitment and support to the UN Global Compact.

We are glad to report that PRME Working Group has developed an analytical framework to map programs and courses against SDGs. The process of mapping will not only help Seneca Business understand its current curriculum but also enables the strategic alignment of future curriculum updates.

The PRME Working Group is proud to announce that with the help of designated faculty evaluators, it is expected to have additional 20 programs mapped, across Seneca Business, by the end of this winter. This is a huge accomplishment for all of us. We would like to thank all of you who helped us make it thus far!
