About

Seneca uses the Blackboard Learning Management System (LMS) branded as Learn@Seneca.

There are many benefits to both students and faculty in using an LMS, such as having course content, assignments, interactions, grades, etc. available 24/7 and organized in one spot; and having a set of rich features available for collaboration, alternative assessment and new pedagogical approaches.

License

Seneca has a licence for this tool.

Tips for using the tool

The weighted column can be a professor's best friend when it comes to calculating progress throughout a semester, learn to configure weighted grades ([Configure Weighted Grades](#)).

For any technical issues, contact: bbsupport@senecacollege.ca.

For questions about how to use Learn@Seneca with your students, contact: teaching@senecacollege.ca.

Examples

For the full introduction to the minimum requirements for Learn@Seneca for all Seneca courses, please visit the Teaching & Learning Centre's [Learn@Seneca Essentials](#) online module.
