Strategic Plan and Academic Policies

Published 11/1/2020 by Ashley Ribbel

Everything we do at Seneca is grounded in our Strategic Plan 2017–2022.

All of Seneca's policies are available on the policy hub. The Academics and Student Services Policies and the Standards of Practice applies to all programs offered by Seneca College, in any location.

In particular, faculty should be familiar with the following policies:

- Academic Integrity Policy

- Course Outlines Policy

- Grading Policy

- Learn@Seneca Minimum Requirements Policy

- Student Assessment Policy

- Student Progression and Promotion Policy

All faculty should also be familiar with Seneca's Digital Learning Strategy.

When faculty are assigned a new (to them) course to teach, the best place to start is with the course outline for that course. Any curriculum development should be guided by the course learning outcomes; all evaluation should be based on course learning outcomes.

Course outlines are posted on Seneca's website – search for any course outline using the Seneca Subject Outline System.
