

Matrix

Version 3

Published 1/6/2021 by [Nadine Chautilal](#) Last updated 2/22/2021 10:53 PM by [Nadine Chautilal](#)

Matrix is a cluster of Linux CentOS servers. Students and Faculty can use Matrix to learn working and programming in a Linux environment.

Faculty

- Send an email to [Service Desk](#) to request for an account on Matrix.
- Faculty that use Matrix for their courses can let [Service Desk](#) know of their school, program and course code, and we will setup automatic account creation for students enrolled in the course at the beginning of each term.

Full-time Students

- To request and create an account use the [self-service portal](#) of Matrix.
- Student accounts will remain active as long as the student is active and enrolled in a full-time day program.

Part-time Students

- Student accounts for Continuing Education will be active on Matrix for the duration of their course.

Accessing Matrix

- Matrix can be accessed using any SSH/SFTP client such as [MobaXterm](#) or [WinSCP](#).
- To use SSH/SFTP to Matrix, users must be connected to [VPN](#) .

Each user on Matrix will have a website with the URL as:
<https://matrix.senecacollege.ca/~username/>
