## About

[Cisco Webex](#) is an online platform that provides virtual face-to-face meeting from anywhere; it has a calling system for making and receiving calls; and instant messaging features. The Webex application can be downloaded via the internet with a digital device such as a computer or smartphone. Other features include screen sharing, whiteboarding, breakout rooms, and web conferencing.

## License

## Keeping Student Information Safe When Using Online Tools

The [Quick guide to secure handling of confidential student information for faculty using online learning tools \(.PDF\)](#) (developed by the Teaching & Learning Centre and ITS) helps faculty choose secure online tools for teaching. The guide provides guidelines and examples to help faculty consider the information students might be giving up when using a new tool. It is intended for quick use of free or low-cost online tools and not for larger, more costly tools that require more rigorous data privacy vetting.
