

Loom

Version 4

Published 2/9/2021 by [Ashley Ribbel](#) Last updated 11/17/2021 1:38 AM by [Ashley Ribbel](#)

About

[Loom](#) records videos of your computer screen, web cam, or both.

License

Seneca does not have a license for this tool but the company offers [free accounts to educators](#).

Tips for the tool

Loom can be downloaded to your computer or used as a browser extension in Chrome. Visit their [help centre](#) to get started.

Note there is a little more functionality on a Mac computer than a Windows computer, but it still works well on both platforms. Key features include: quick sharing of videos in seconds, ability to edit right in the tool, add a call-to-action to the front of your video, and ability to download the video file for upload to YouTube or Microsoft Stream.

Examples

- [A quick video to share a tip with colleagues](#)
- [Full instructions to use an online tool](#)
- [Demonstrating a bug that was sent to the ITS Service Desk](#)
