Leganto*

Version 12

About

Leganto is a resource list management system that is integrated with both Learn@Seneca and the library's search and resource management system. Users can create custom course materials lists and add a direct link within their Learn@Seneca course. When building a resource list, instructors can:

- easily search and drag-and-drop library resources into the list

- include other types of materials such as web sites, videos, articles etc.

- organize items into sections that can be displayed or hidden from students

- prompt students for interaction with items using built-in functions (likes, mark read, discussions, notes)

- submit uploaded files for copyright review to the library

- collaborate with librarians and other instructors on building and maintaining resource lists

- export lists into multiple formats (RIS, BibTex, Excel, Word, PDF) for reuse

- view usage metrics for each list

Licence

> ```
>         * - Items with a college-wide license have an asterisk
> ```

Leganto is part of the library's systems. You can access Leganto through Learn@Seneca from Course Tools ("Resource List") or directly at Leganto login and signing in with your Seneca credentials.

Tips for the tool

- Faculty Starting Guide to Leganto created by the library

- Leganto Video guides and wizards (click on "?" in Leganto)

- Leganto for Instructors Videos

- Contact the library to find out if a PD session is available or to schedule a 1-on-1 overview of Leganto: librarians@senecapolytechnic.ca

Keeping Student Information Safe When Using Online Tools

The Quick guide to secure handling of confidential student information for faculty using online learning tools (.PDF) (developed by the Teaching & Learning Centre and ITS) helps faculty choose secure online tools for teaching. The guide provides guidelines and examples to help faculty consider the information students might be giving up when using a new tool. It is intended for quick use of free or low-cost online tools and not for larger, more costly tools that require more rigorous data privacy vetting.

Examples

Sample Topic Resources Lists: Indigenous Collection: English Language Learning with Refugee Youth Anti-Colonial Pedagogy.

Related Tools

- Library search
